Queen's School, Chester Campus Strategy

Project Profile

A private day school for girls, Queen's School occupies an enviable location close to the City Centre but in a quiet position overlooking the City Walls. From its foundation in the early 19th Century the School campus has grown steadily to meet advancing educational needs.

With an extensive complex of buildings comes the need to pay attention to maintenance and plan carefully for the future. TNW have been advising the School with their planned maintenance programme, which has brought all existing facilities into first class order.

In addition to this, continued pressure on space has resulted in a long term strategy identifying all the possible areas of expansion. The most recent exercise has involved converting a neighbouring hotel into a Sixth Form and Learning Resource Centre.
